A Unique Enterprise Resource Planning System that  
Improves your Office Management Wisely.

No more Chaos in your institution's management...  
Now with WISE be confident you've got the tools you need to  
get the management done wisely...

Designed and Developed by Experts in Programming  
with Seminary Management Skills and Backdrop.

## A Unique Enterprise Resource Planning System that Improves your Office Management Wisely.

WISE SMS is a reliable ERP Solution designed and developed to manage the entire functionality using a centralized database. WISE is designed and developed by experts in programming with seminary management skills and backdrops.

WISE SMS is ideal for institutions like Bible Colleges, Seminaries, and Training Centers etc. It is also useful for schools, colleges, institutions and training centers. The dynamic platform of WISE allows institutions to manage their whole organization.

The main modules of WISE SMS are **Admission, Administration, Accounts, Academics** and **Alumni**. WISE SMS uses a centralized database that can be accessed by any authorized user in a multi user environment. In WISE SMS each group has its own sets of rights to furnish and retrieve data. Simple Interface allows one to start working on WISE even with minimal computer knowledge.
